Objective of the World Leaders' Conservation Forum 2018

Building on the success of the WLCF2015, the World Leaders' Conservation Forum 2018 will provide a platform for leaders from all sectors of society, including Governments, business, civil society and academia, to discuss and seek creative nature-based solutions to global environmental, economic and social challenges. The World Leaders' Conservation Forum is expected to inspire people around the world to take concrete action in favour of nature. Innovative IT features and active facilitation will be used to maximise engagement and exchange among participants.

WLCF2018 Theme & sub-themes

The World Leaders' Conservation Forum 2018 takes place at an important moment for conservation, with only two years left to meet the 20 Aichi targets defined by the Convention on Biological Diversity and the Sustainable Development Goals well underway. It is the highlight of IUCN's 70th anniversary celebrations, setting the stage for both looking back at the achievements of the past and, more importantly, defining the future we want, and the type of actions that will allow for this future to become a reality. The discussions held during the inception meeting identified the main ideas around which the WLCF2018 will revolve. These documents turn these ideas into more concrete messages that will then form the theme and sub-themes of the WLCF2018.

Overall theme:

TOGETHER FOR A SUSTAINABLE FUTURE

Sub-theme 1:

SUSTAINABILITY:

TURNING WORDS INTO ACTIONS THROUGH COOPERATION

Sub-theme 2:

BEYOND BORDERS

Sub-theme 3:

EMPOWERING THE NEXT GENERATIONS
